TURMOIL IN EGYPT

Dear Sir,

I'm writing this letter to you to clarify some aspects of the unrest state we are facing now in Egypt. I'll be grateful if you can pass this letter to your friends and the people you know so that facts about the current situation can be availed in front of the flood of lies we here from many authorities, particularly in the United States and some other European countries.

1. The story dates back to four decades ago, during the October 1973 war between Egypt and Israel, when late king Faisal of Saudi Arabia decided to cut off oil supplies to U.S and many European countries because of their support to Israel. In response to that and as a new strategy, U.S minister of foreign affairs at that time, Henry kissinger, who served as National Security Advisor and later Secretary of State in the Nixon and Ford administrations, 1972-1976, planned for two major objectives. The first aimed at lessening dependence of U.S on oil supplies from Arabic countries as a major source of energy, a goal expected to be achieved within the next decade. The second objective was to redesign U.S policy in the Middle East to guarantee that Egypt' victory in October 1973 war won't be repeated again for many obvious considerations.

2. Since that time, the plans aiming at dividing and fragmentation of the bulk of Arabic countries in the region, or lately the newly constructed Great Middle East ruled by Israel under the leadership of the U.S, and designed by the members of the league of evil and malice comprising Condoleezza Rice, George W. Bush, Dick Cheney, Donald Rumsfeld, Paul Wolfowitz, Richard Perle, Lewis Libby and many others, became a cornerstone of the U.S strategy. Kissinger, as one of the most malignant members of the league of evil and malice that dominates the construction of the U.S policies, succeeded in deceiving president Sadat at that time and convinced him to accept the Camp David Accords in 1978, thus paving the way to separate Egypt, as the most important country with the largest and most strong army, from the rest of Arab world.

3. This malicious plan began and progressed steadily over the last decades, and achieved superb success that culminated in the destruction of Iraq, Libya and Syria and the splitting of Sudan. Though the fragmentation of Saudi Arabia, not only for oil but more importantly for obvious religious reasons, represents the final goal of the plan, destabilizing and dividing Egypt after destroying its army and police forces is a prerequisite step for achieving that goal. Destabilizing and fragmentation of KSA is a common target of both the U.S and Iran. Religious and political motives underlie the strategy of both countries towards the region. The U.S and its submissive European countries, in particular Germany-France and U.K, in addition to Israel, are motivated by their hopes of conquering Islam and destruction of the Islamic nation for obvious reasons. Similarly, Iran is motivated by the evil and malicious concepts of the Shiite religion that aims at destroying the holy Islamic places in KSA to destroy Islam and impose their perverse and nugatory religious concepts. Another pivotal common target between U.S and Iran is destabilization and fragmentation of Egypt since it represents the cornerstone of both Arabic and Islamic nations. For Iran, Egypt is the place from where their mythical Mahdi will announce his mission to the rest of the world after his armies invade Egypt from the west (Libya) and south (KSA). For the U.S, Egypt represents the real threat to Israel which is considered, within the context of the American strategies and policies, a U.S state or more precisely a military base used for achieving the American goals in the region

4. The U.S evil policies that paved the way for giving birth to radical and terroristic organizations to undergo its proxy war against the Soviet Union invasion of Afghanistan at that time, 1979, decided during the last decade to make use of and to support the Muslim brotherhood, the mother source of terroristic ideas and concepts for all terroristic organizations in the Islamic world like Al-Qaedaa and Al-Gehad organizations, to rule Egypt. The reasons were obvious because the Muslim brotherhood terroristic organization claims that commitment to Islam, not to Egypt, must be the sole concept. They also believe that patriotism has no place, and should not have any role, within the context of this concept in any Islamic nation.

5. The plan to destabilize, divide and fragment Egypt began by the January, 25th 2011 revolution. Unfortunately, no one could recognize the roots of the conspiracy at that time. However, after the success of the evil U.S plan, Dr. Mohammad Morsi, one of the main figures of the Muslim brotherhood terroristic organization, became the president of Egypt in July, 1st 2012 after falsified elections. During the last year, the main features of the conspiracy to those aware of it became quite evident. First, he approved Sudan's allegations regarding its ownership of Halayeb and Shalateen which are integral parts of Egypt, and he was obliged to retreat after wide military and popular expostulations. Then he, and the rest of the members of the Shoura council, or the ruling council, of the Muslim brotherhood terroristic organization, committed the unforgivable crime when they approved the abdication of part of Sinai to build up a Palestinian state for people of Gaza district followed by forced expulsion of Palestinians of the west bank by Israel, as a final solution of the Palestinian problem and as a first step towards the fragmentation of Egypt. At this point, in addition to the miserable failure in all aspects of ruling, there was no other ways to save Egypt from this malicious conspiracy planned by U.S, approved by some other European countries notably Germany-England and France and conducted by the Muslim brotherhood terroristic organization, other than to take off and expel this traitorous president and the rest of the members of his organization.

6. The June, 30th 2013 revolution represented a lethal stroke to the conspiracy, and this fact explains the insanity of the U.S, German and French administrations in response to this shocking failure of the plan.

I hope this short resume could clarify some aspects of the turmoil we are facing now in Egypt. The Muslim brotherhood terroristic organization represents the fifth column, first formed by the British devils in 1928 and sponsored by the U.S since 1979. Unfortunately, against the terroristic concepts and attitudes of this organization, we have no other options than to excise, remove and isolate it in a radical way from our homeland, to defeat this conspiracy and to attain peace and security for Egyptian people.

Once more, I'd be grateful if you can pass this e-mail to as much friends and people as you can to help in clarifying the hidden facts about the current situation in Egypt in front of the lies, fibs and fabrications of Obama, Merkel, Hollande, etc.

Kindest regards & Best wishes
August 16, 2013
